INDEX TO VOLUME CLX.

AUTHORS.

Adler, Herman M. Progress in the theory and practice of medicine, 448.
Aitken, H. F., and Ayer, J. B. A report on the circulation of the lobar ganglia, May 6 supplement.
Allison, Nathaniel. Anterior metatarsalgia: its causes and its relief, 229.
Amory, Robert. Coffee as a beverage, its use and abuse, 611.
Ayer, J. B., and Aitken, H. F. A report on the circulation of the lobar ganglia, May 6 supplement.

Badger, George S. C. Arteriosclerosis, 329.
Baldwin, Henry C. The personal element in prescribing hydrotherapy, 468.
Baldwin, Henry C., and Brewster, G. W. W. Report of a case of middle meningeal hemorrhage successfully operated upon, 545.
Barringer, Benjamin S. The Luys urine separator. Second report of forty-one cases, 502.
Baruch, Simon. Some truths about hydrotherapy, 463.
Bernstein, Harry S. Medicine in the Bible. (A brief review), 166.
Berry, John C. Treatment of obstruction of the lachrymal duct, 541.
Boehm, Max, and Hartwell, J. B. Reminiscences of America, 41.
Boos, William F. On the cold storage of poultry, 107.
Brewster, G. W. W., and Baldwin, Henry C. Report of a case of middle meningeal hemorrhage successfully operated upon, 545.
Brown, Daniel R. The feeding of the infant in health, 128.
Brown, William J., Crandon, L. R. G., and Place, Edwin H. Noma: seven cases; two recoveries; forty infected, 473.
Bucholz, C. Hermann. The principles of mechanotherapy with special reference to the treatment of orthopedic cases, 264.
Bullard, William N. The placing out of high-grade imbecile girls, 776.
Burns, F. S. Two cases of self-inflicted skin lesions, 547.
Burrage, W. L. Report on gynecology, 274.

Cabot, Arthur T. Surgical treatment of cancer of the bladder, 65.
Cabot, Hugh. Two cases of bilateral nephrolithiasis, 208.
Cabot, Richard C. The consumption of alcohol and of other medicines at the Massachusetts General Hospital, 480.
Cabot, Richard C., Goldthwait, Joel E., Mumford, James G., Pratt, Joseph H. An advisory medical board of the Emmanuel movement, 90; the Emmanuel movement. An explanation, 123.
Chase, Henry M. A flexible metal catheter, 272.
Cheney, Frederick E. The newer silver salts as compared with silver nitrate in the treatment of ophthalmia neonatorum, 269.
Chetwood, Charles H. Some observations on renal diagnosis, 259.
Chute, Arthur L. Some aspects of cystitis, 68.
Cobb, Farrar. Three cases of perforated gastric ulcer in men. Operation. Recovery, 204.
Cobb, Frederic C. Bacteriological aids to diagnosis, 645.
Codman, E. A. On the importance of distinguishing simple round ulcer of the duodenum from those ulcers which involve the pylorus or are above it, 550.
Conant, W. M. Twisted pedicle, 206.
Coolidge, A., Jr. Transillumination of the antrum, 645.
Coriat, Isador H. A peculiar form of family nervous disease resembling multiple sclerosis occurring in children, 506.
Coues, W. P. Do not publish patients' full names, 732; the medical inspection of schools in Boston. The present limitations and future possibilities, 746.
Cox, Simon F., and Locke, Edwin A. The municipal hospital for advanced consumptives in Boston, 438.
Craig, Charles F. The classification of the malarial plasmodia, 677.
Crandon, L. R. G., Place, Edwin H., and Brown, William J. Noma: seven cases; two recoveries; forty infected, 473.
Crockett, Eugene A. What type of operation is best adapted for the relief of disease of the frontal sinus? 96.
Crossfield, Frederic S. Report of cases. (*a*) Small round-cell sarcoma of the tonsil. (*b*) Adenocarcinoma of the left maxillary sinus, 109.
Cumston, Charles G. Appendicitis among the ancients, 155; bedside teaching under the Roman Empire, 32; the discovery of the circulation, 460; the early career of Sydenham, with remarks on the men and medicine of his time, 665; the history of syphilis, 91; a study on hand sterilization, 333, 373.
Cunningham, John H., Jr. Amputation of an arm with local cocaine anesthesia, 751; two cases of kidney infection illustrating the value of cystoscopic examination and ureter catherization. Treatment of the cases by vaccines, 340.

Dailey, M. A., Graham, W. T., Overlander, C. L., and Overlander, John E. Typhoid carriers found in a series of typhoid fever patients at the time of their discharge from the Boston City Hospital, 38.
Dana, Harold W. Poisoning by illuminating gas. Report of six cases, 680.
Delano, Samuel. Martial again, 91.
Denny, Charles F. Appendectomy. Rupture of small bowel. Resection with end-to-end anastomosis, 715.
Denny, Francis P. Human milk in the treatment of various infections, 161.
De Normandie, Robert L. Breast abscesses. A report of seven cases treated by Bier's suction method, 601; report on obstetrics. Ophthalmia neonatorum, 138.
Dodge, Arthur M. Ethyl chloride in general anesthesia, 234.
Donley, John E. Mysticism and medicine, 306.
Drew, Charles A. How may the medical and scientific spirit be best promoted in our institutions? 49.
Dwight, Thomas. Extensive calcification of pleuritic exudation causing curvature of the spine, 699.

Eastman, A. C. Psychotherapy as applied to children, 163.

Young, Charles D. The Emmanuel movement, 189.
Young, Ernest B., and Rhea, Lawrence J. Infections with the bacillus aerogenes capsulatus, following abortion. A report of two cases, in one of which the bacillus was recovered from the circulating blood during life, 401.
Young, Ernest B., and Williams, John T. Cancer of the uterus. A review of 254 cases from the gynecological service of the Boston City Hospital, 225.

SUBJECTS.

Abortion. Criminal abortion, Taft, George S., 197; infections with the bacillus aerogenes capsulatus, following abortion. A report of two cases, in one of which the bacillus was recovered from the circulating blood during life, Young, Ernest B., and Rhea, Lawrence J., 401.
Abscesses. Breast abscess. A report of seven cases treated by Bier's suction method, De Normandie, Robert L., 601; epilepsy following orbital abscess, Holmes, Edgar M., 510; an easy extraperitoneal approach to an abscess of the broad ligament, Hutchins, Henry T., 485; abscess and gangrene of the lungs, Lord, F. T., 544. Paris letter. The Fochier fixation abscess, "Spectator," 731.
Addresses. The historical aspect of professional relationship, Edson, Carroll E., 1: the early career of Sydenham, with remarks on the men and medicine of his time, Cumston, Charles G., 665; the Emmanuel movement, Young, Charles D., 189; the conquest of the tropics for the white race, Gorgas, W. C., 765.
Alcohol. The consumption of alcohol and of other medicines at the Massachusetts General Hospital, Cabot, Richard C., 480.
Alimentary Tract. The examination of the feces for the study of the functional condition of the alimentary tract in clinical work, Hewes, Henry F., 429.
Aloin Test. The aloin or guaiac test for blood depends solely upon the iron contained in its hemoglobin, Whitney, William F., 203.
America. Reminiscences of America, Boehm, Max, and Hartwell, J. B., 41.
Amputation. Amputation of an arm with local cocaine anesthesia, Cunningham, John H., Jr., 751; interscapulothoracic amputation of the left arm, Harrington, Francis B., 204.
Aneurism. Treponemata (spirochetæ) in syphilitic aortitis. Five cases, one with aneurism, Wright, James H., and Richardson, Oscar, 539.
Anesthesia. Ethyl chloride in general anesthesia, Dodge, Arthur M., 234; amputation of an arm with local cocaine anesthesia, Cunningham, John H., Jr., 751; the value of ethyl chloride as a general anesthetic, Miller, Albert H., 643.
Antrum. Transillumination of the antrum, Coolidge, A., Jr., 645.
Appendicitis. Appendicitis among the ancients, Cumston, Charles G., 155; appendectomy. Rupture of small bowel. Resection with end-to-end anastomosis, Denny, Charles F., 715.
Arteriosclerosis. Arteriosclerosis, Badger, George S. C., 329.
Association Test. The association test and psycho-analysis, Ring, Arthur H., 16.

Bacteriology. Bacteriological aids to diagnosis, Cobb, Frederic C., 645; bacterial analysis of forty specimens of pus aspirated from the maxillary sinus, Faunce, C. B., Jr., 652.
Bier's Apparatus. A modification of Bier's hot-air apparatus, Tracy, Edward A., 818.
Bile Passage. Surgery of the bile passages with special reference to the end-results, Munro, John C., 359.
Bladder. Surgical treatment of cancer of the bladder, Cabot, Arthur T., 65; some aspects of cystitis, Chute, Arthur L., 68; tumors of the bladder and cystitis, Garceau, Edgar, 74; an accurate rapid method for the quantitative determination of chlorine in the urine. A critical study of the short methods in vogue, Goodall, Harry W., 304; papilloma of bladder and cystoscopy, Meyer, Henry, 295; a case of infrapubic cystotomy. Three cases of bladder tumor, Tenney, Benjamin, 497.
Blood. The discovery of the circulation, Cumston, Charles G., 460; a comparison of the guaiac and benzidin tests for invisible hemorrhage in diseases of the digestive organs, White, Franklin W., 733; the aloin or guaiac test for blood depends solely upon the iron contained in its hemoglobin, Whitney, William F., 202; infections with the bacillus aerogenes capsulatus, following abortion. A report of two cases, in one of which the bacillus was recovered from the circulating blood during life, Young, Ernest B., and Rhea, Lawrence J., 401.
Bone Marrow. An unusual case suggesting acute disease of the bone marrow with apparent recovery, Vickery, H. F., 205.
Books Reviewed. Aikens, Charlotte A., primary studies for nurses, 788; Bailey, F. R., textbook of embryology, 655; Bainbridge, William Seaman, life's day. Guide posts and danger signals in health, 655; Barrus, Clara, nursing the insane, 625; Bashford, E. F., third scientific report on the investigations of the Imperial Cancer Research Fund, 381; Beck, Amanda K., a reference handbook for nurses, 316; Beers, Clifford Whittingham, a mind that found itself. An autobiography, 82; Bell, Ralcy Husted, the changing values of English speech, 625; Bockenheimer, Ph., atlas of clinical surgery, with special reference to diagnosis and treatment, 113; Bonney, Sherman G., pulmonary tuberculosis and its complications, with special reference to diagnosis and treatment, 589; Broadbent, Walter, editor, Oxford medical publications. Selections from the writings, medical and neurological, of Sir William Broadbent, 588; Brooke, Gilbert E., aids to tropical medicine, 416; Brubaker, Albert P., a textbook of human physiology, 21; Bryant, Joseph D., and Buck, Albert H., editors, American practice of surgery. A complete system of the science and art of surgery, 317; Calmette, A., venoms, venomous animals and antivenomous serum therapeutics, 22; Camac, C. N. B., collector, epoch-making contributions to medicine, surgery and the allied sciences, 551; Crile, George W., hemorrhage and transfusion; and experimental and clinical research, 789; De Fursac, J. Rogues, manual of psychiatry, 625; Dingwall-Fordyce, A., editor, diet in infancy. The essential introduction to the study of disease in childhood, 81; Elliott, J. F., hints to ship surgeons, 789; Ehrlich, Paul, experimental researches on specific therapeutics, 519; Farabeuf, L. H., and Varnier H., introduction to the clinical study and to the practice of obstetrics, 211; Firth, R. H., military hygiene, 176; Fisher, Theodore, the heart and sudden death, 519; Friedburger and Fröhner's veterinary pathology, translated by M. H. Hayes, 52, 518; Friedmann, M., contributions to the study of paranoia, 655; Gant, Samuel Goodwin, constipation and intestinal obstruction (obstipation), 316; Gierlich, Nikolaus, studies in paranoia and the origin of paranoid delusions, 655; Gray, Henry, anatomy: descriptive and surgical, 248; Gordon, Alfred, diseases of the nervous system, 82; Gottschalk, Sigmund, medizinische handbibliothek, 518; Groves, Ernest W. Hey, a synopsis of surgery, 346; Hardesty, Irving, a laboratory guide for histology, 451; Hare, Hobart Amory, and others, the national standard dispensatory, 551; Harmon, N. Bishop, aids to ophthalmology, 550; Herbert, H., cataract extraction, 654; Herter, C. A., on infantilism from chronic intestinal infection characterized by the overgrowth and persistence of flora of the nursing period, 416; Hubbell, Alvin A., the development of ophthalmology in America, 1800 to 1870, 519; Hutchinson, Woods, instinct and health, 654; Jackson, George Thomas, the ready reference handbook of diseases of the skin, 416; Janet, Pierre, les névroses, 788; Jordan, Edwin O., a textbook of general bacteriology, 722; Keen, William Williams, editor, surgery, its principles and practice, 452; Kirkham, Stanton Davis, the philosophy of self help. An application of practical psychology to daily life, 451; Knorr, Richard, die cystoskopie und urethroskopie beim weibe, 22; Lloyd, William, hay-fever, hay-asthma, its causes, diagnosis and treatment, 519; Mallory, Frank Burr, pathological technic. A practical manual for practical workers in pathological histology and bacteriology, 722; Martindale and Westcott, the extra pharmacopea, 113; McCombs, Robert S., diseases of children for nurses, including infant feeding, therapeutic measures employed in childhood, treatment for emergencies, prophylaxis, hygiene and nursing, 755; the *Medical Record* visiting list or physicians' diary for 1909, 113; Metchnikoff, Elie, the prolongation of life. Optimistic studies, 589; Miller, Charles C., the cure of rupture by paraffin injections, 22; Mumford, James G., surgical memoirs and other essays, 551; Munro, Henry S., a handbook of suggestive therapeutics, applied hypnotism, psychic science, 316; Neef, Frederick-Emil, practical points in anesthesia, 22; Nicoladoni, Carl, anatomy and mechanics of scoliosis, 286; Osler, William, an Alabama student and other biographical essays, 551; Osler, William, Linacre lecture, 1908, St. John's College, Cambridge. Thomas Linacre, 286; Parsons, J. Herbert, the pathology of the eye, 416; Phillips, R. J., spectacles and eyeglasses, 519; Pottenger, Francis M., the diagnosis and treatment of pulmonary tuberculosis, 451; Powell, William M., Saunders' pocket medical formulary, 825; Putnam, James Jackson, memoir of Charles Follen Folsom, 381; Ravogli, A., syphilis in its medical, medico-legal and sociological aspects, 52; Sawyer, H. C., the matter with nervousness, 789; Sawyer, James, points of practice in maladies of the heart. Lumleian lectures at the Royal College of Physicians of London, 316; Sawyer, James E. H., physical signs of diseases of the thorax and abdomen, 722; Schafer, Edward Albert, and others, editors, Quain's elements of anatomy, 381; Schamberg, Jay Frank, diseases of the skin and the eruptive fevers, 381; Schmidt, Rudolph, pain: its causation and diagnostic significance in internal disease, 286; Shoemaker, John V., health and beauty, 286; Shoemaker, William T., retinitis pigmentosa, 551; Simpson, W. J. R., the principles of hygiene as applied to tropical and subtropical climates, 452; Sluss, John W., emergency surgery for the general practitioner, 22; Stelwagon, Henry W., treatise on diseases of the skin, 625; Taylor, Henry L., Ogilvy, Charles, and Albee, Fred H., orthopedic surgery for practitioners, 519; Taber, Clarence W., and Senn, Nicholas, editors, Taber's pocket encyclopedic medical dictionary, 487; Thomson, John, guide to the clinical examination and treatment of sick children, 417; Todd, James Campbell, a manual of clinical diagnosis, 81; Warfield, Louis M., arteriosclerosis: etiology, pathology, diagnosis, prognosis, prophylaxis and treatment, 487; Watson, Francis S., and Cunningham, John H., Jr., diseases and surgery of the genito-urinary system, 114; Weber, Hermann, on means for the prolongation of life, 550; West, Charles, how to nurse sick children, 625; Wheeler, Alexander, and Jack, William R., handbook of medicine and therapeutics, 487; Williamson, R. T., diseases of the spinal cord, 145; Wood, Casey A., and Woodruff, Thomas A., the commoner diseases of the eye, 519; Wood, Horatio C., therapeutics; its principles and practice, 518; Woolsey, George, applied surgical anatomy, regionally presented, 82.

Cancer. London letter. Cancer metamorphosis, C., 326; surgical treatment of cancer of the bladder, Cabot, Arthur T., 65; adenocarcinoma of the left maxillary sinus, Crossfield, Frederic S., 109; laryngotomy and laryngectomy for cancer, with report of four cases, Greene, D. Crosby, Jr., 99; the results of operations for cancer of the tongue, mouth and jaw at the Massachusetts General Hospital, 1890 to 1904, Greenough, Robert B., Simmons, Channing C., and Green, Robert M., 563; a short description of Wertheim's radical abdominal operation for cancer of the cervix of the uterus, with a report of eight cases, Hutchins, Henry T., 641; cancer of the uterus, Johnson, F. W., 357; the value of hemolysis in the diagnosis of carcinoma, Whittemore, Wyman, 77; early treatment of some epitheliomas by pure radium salts, Williams, Francis H., 302; cancer of the cervix complicating pregnancy, Williams, John T., 669; cancer of the uterus. A review of 254 cases from the gynecological service of the Boston City Hospital, Young, Ernest B., and Williams, John T., 225.
Clinical Meetings. Massachusetts General Hospital, 204, 544, 645.
Cold Storage. On the cold storage of poultry, Boos, William F., 107.
Coffee. Coffee as a beverage, its use and abuse, Amory, Robert, 611; on the effects of coffee and their remedy, Wesselhoeft, Walter, 608.
Correspondence. London letter. The function of the colon. The lymphatics of the colon. "Ulcerative colitis." The radium institute. Cancer metamorphosis. The Prince of Wales. Tuberculosis exhibition. Bernard Shaw, C., 326; do not publish patients' full names, Coues, William P., 732; appendicitis among the ancients, Cumston, Charles G., 155; bedside teaching under the Roman Empire, Cumston, Charles G., 32; the discovery of the circulation, Cumston, Charles G., 460; the history of syphilis, Cumston, Charles G., 91; ophthalmia neonatorum, D. C., 599; Martial again, Delano, Samuel, 91; an appeal in behalf of a suffering benefactor of humanity, Ernst, Harold C., 561; an advisory medical board for the Emmanuel movement, Goldthwait, Joel E., Mumford, James G., Cabot, Richard C., and Pratt, Joseph H., 90; the question of medical license examinations, Harvey, Edward B., 91; the day camp of the Lawrence Anti-Tuberculosis League, Howe, G. P., 123; cancer of the uterus, Johnson, F. W., 357; papilloma of bladder and cystoscopy, Meyer, Henry, 295; another English version of Martial, Millican, Kenneth W., 123; Morris's point of tenderness as an aid in diagnosis, Morris, Robert T., 63; the Emmanuel movement. An explanation, Mumford, James G., Goldthwait, Joel E., Cabot, Richard C., and Pratt, Joseph H., 123; "the treatment of inebriety," Robinson, Beverley, 561; Paris letter. The Fochier fixation abscess, "Spectator," 731; Paris letter. The history of a diagnosis, "Spectator," 426; Paris letter. A novel treatment of the working-class consumptive, "Spectator," 560; atropine as a hemostatic, Waugh, William F., 357; are we taking the Emmanuel movement too seriously? X. Y., 32; Dr. H. A. Hare protests, Hare, H. A., 833; "a case of egg poisoning," McKeen, Sylvester F., 767; "egg poisoning." In reply to Dr. McKeen, Tyrode, M. Vejux, 833.
Cystitis. Some aspects of cystitis, Chute, Arthur L., 68; tumors of the bladder and cystitis, Garceau, Edgar, 74.
Current Literature. Annals of Surgery, 119, 291, 353, 493, 631, 794; The American Journal of the Medical Sciences, 87, 181, 352, 492, 631, 760; Annales de l'Institut Pasteur, 121, 256, 391, 558, 695; Archiv für Klinische Chirurgie, 661, 694, 728, 797; Archives of Internal Medicine, 27, 291, 388, 525, 692; Berliner Klinische Wochenschrift, 30, 90, 220, 255, 293, 325, 355, 390, 425, 458, 494, 526, 557, 599, 633, 661, 694, 728, 762, 796, 829; British Medical Journal, 29, 60, 89, 152, 182, 218, 292, 323, 354, 389, 457, 524, 598, 632, 661, 693, 727, 761; Bulletino delle Scienze Mediche, 391, 797; Bulletin of the Johns Hopkins Hospital, 88, 182, 323, 493, 596, 761; Deutsches Archiv für Klinische Medizin, 30, 390, 425, 458, 557, 796; Deutsche Medizinische Wochenschrift, 30, 61, 89, 120, 153, 183, 219, 255, 292, 324, 355, 389, 424, 457, 494, 526, 556, 598, 632, 661, 693, 727, 762, 795, 829; Deutsche Zeitschrift für Chirurgie, 120, 153, 293, 325, 425, 527, 830; Die Therapie der Gegenwart, 31, 183, 326, 495, 763; Edinburgh Medical Journal, 30, 183, 324, 424, 598, 795; Journal of Experimental Medicine, 88, 422; Journal of Medical Research, 88, 353, 597; Journal of the American Medical Association, 27, 59, 86, 118, 151, 181, 217, 254, 290, 322, 352, 387, 422, 456, 492, 524, 595, 630, 660, 692, 726, 760, 794, 828; The Lancet, 29, 59, 89, 152, 182, 217, 292, 323, 354, 389, 457, 494, 524, 556, 597, 632, 660, 693, 727, 761; Medical Record, 86, 118, 151, 253, 387, 555, 595, 759, 794; Münchener Medizinische Wochenschrift, 61, 90, 120, 153, 183, 219, 255, 293, 324, 355, 390, 424, 457, 494, 526, 556, 599, 632, 661, 694, 728, 762, 795, 829; New York Medical Journal, 27, 59, 180, 217, 253, 290, 322, 352, 387, 422, 456, 492, 524, 555, 595, 630, 660, 691, 726, 759, 794, 828; Practitioner, 29, 183, 324, 424, 598, 761; Quarterly Journal of Medicine, 60, 254, 829; Revue de Chirurgie, 62, 154, 326, 459, 633, 763; Surgery, Gynecology and Obstetrics, 28, 119, 291, 423, 555, 726; Zeitschrift für Klinische Medizin, 220, 325.
Curvature of the Spine. Extensive calcification of pleuritic exudation causing curvature of the spine, Dwight, Thomas, 699.

Deaths. Anderson, Henry A. C., 64; Atwood, John W., 296; Baker, George Lorimer, 392; Bigelow, Horatio R., 258; Brewer, Charles, 328; Brower, Daniel R., 296; Brown, Dillon, 392; Brown, Roscoe Ellsworth, 64; Chalmers, Matthew, 64; Cutler, William Bullard, 328; Doane, Luigi Galvani, 496; Donovan, Alfred Quinn, 600; Draper, Frank Winthrop, 528; Fairweather, Henry Ogden, 496; Farrow, Levi, 428; Fessenden, Joseph Palmer, 428; Forman, D. McLean, 462; Francis, Tappan Eustis, 392; Galloupe, Isaac Francis, 664; Gerrish, Charles M., 188; Geyer, Horace C., 92; Gilbert, Daniel Dudley, 64; Gomez, Horatio, 562; Gomez, Salvatore, 698; Goodman, Henry Louis, 92; Gray, John Walter, 124; Hahn, Ammi Ruhamah, 428, 462; Hall, Thomas, 664; Harding, Walter Allen, 224; Hills, T. Morton, 156; Keenan, Henry C., 764; Knight, Frederick Irving, 258; Marsh, James Elmer, 258; Mauch, Joseph Bernhard, 188; McCollom, William, 296; Michaelis, Ludwig M., 462; Miller, Theodore, 664; Murray, Robert A., 328; O'Connor, John James, 428; Porter, Charles Burnham, 698; Quigley, John J., 64; Robbins, Nathaniel A., 258; Roberts, Charles Henry, 224; Russell, Gurdeon W., 188; Sanderson, John E. W., 562; Seymour, Wilbur Hall, 328; Sill, Henry Dorr, 92; Small, Freeman E., 392; Somers, Milton LeRoy, 462; Stedman, Charles Ellery, 698; Tenney, Asa P., 392; Townes, John H., 358; Troy, Alice Gertrude, 328; Wey, Hamilton Dixey, 392; Williamson, Alexander, 188; Woodruff, Morgan Lewis, 296; Ferguson, Hugh, 798; Trowbridge, E. W., 798; Tuthill, Robert K., 798; Gunther, Eugene, 834; Moffett, Edmund Montgomery, 834; Wilson, Louis Thornton, 834.

Dengue. An epidemic of dengue in the Philippine Islands, Jones, Harold W., 46.

Diphtheria. The fermentation test in diphtheria, Fisher, C., 652.

Editorials. A plan for the extermination of tuberculosis, 23; the birth and death-rate, 24; human embryology, 53; the Secretary of the Massachusetts State Board of Health, 54; typhoid carrier, 55; Massachusetts conference on oral and dental hygiene, 55; medical license examinations, 83; the barber surgeon, 83; another centenarian, 84; the tumor problem, 115; a laboratory of serum diagnosis at the Harvard Medical School, 115; institution of physical therapeutics, 146; tubercle bacilli in the circulating blood, 146; the salts of radium, 147; leprosy in Hawaii, 177; experimental medicine, 177; the change in the medical profession, 212; hospital for mental disease, 213; entrance requirements to medical schools, 214; the death of Argyll Robertson and medical progress, 249; social service work at the Massachusetts Charitable Eye and Ear Infirmary, 250; prescription writing, 287; the opium question, 287; bills before the Massachusetts legislature, 318; tuberculosis in factories. What Massachusetts employers are doing, 319; periods in the history of medicine, 320; the early recognition of uterine cancer, 347; a significant gift for the tuberculosis campaign, 347; annual report of the Massachusetts General Hospital, 382; international medical ethics, 383; annual report of Harvard University, 1907–08, 417; the possibilities of public institutions, 419; plague in San Francisco, 453; social service under medical supervision, 454; revision of Massachusetts insanity laws, 454; the Association of Pathologists and Bacteriologists, 487; a protest against receiving tuberculous patients, 488; the treatment of inebriety, 520; the Holmes centenary, 521; Prof. Theobald Smith's Lowell Institute lectures, 522; a possible improvement in medical expert testimony, 552; treponemata (spirochætæ) in syphilitic aortitis, 552; a milestone in medical education, 590; annual report of the Carney Hospital, 592; a medical school in China, 626; a memorial to Dr. Wm. T. Bull, 626; the indictment of the house fly, 627; the proposed new hospital for mental disease in Boston, 656; the cerebral circulation, 657; medical alumni associations, 689; physicians and the law, 689; a field for undergraduate nurses, 723; Michigan state psychopathic hospital, 723; the Pepys of modern science, 756; special hospitals, 757; the development of tuberculosis in the Indian, 789; tuberculosis among the Indians of New York State, 790; the meeting of The Massachusetts Medical Society, 791; Independence Day tetanus, 826; the degree of doctor of medicine at Harvard, 827.

Electricity. A case of death from the electric current as the result of turning on an electric light, Jones, Fred E., 239; some new applications of electricity and light medicine, Van Allen, H. W., 331.

Emmanuel Movement. An advisory medical board for the Emmanuel movement, Goldthwait, Joel E., Mumford, James G., Cabot, Richard C., and Pratt, Joseph H., 90; the Emmanuel movement. An explanation, Mumford, James G., Goldthwait, Joel E., Cabot, Richard C., and Pratt, Joseph H., 123; are we taking the Emmanuel movement too seriously? X. Y., 32; the Emmanuel movement, Young, Charles D., 189.

Epilepsy. Epilepsy following orbital abscess, Holmes, Edgar M., 510.

Esophagus. A case of diverticulum of the esophagus, Mosher, H. P., 647.

Ethyl Chloride. Ethyl chloride in general anesthesia, Dodge, Arthur M., 234; the value of ethyl chloride as a general anesthetic, Miller, Albert H., 643.

Football Injuries. Football injuries of the Harvard squad for three years under the revised rules, Nichols, Edward H., and Richardson, Frank, 33.

Fractures. Care of fractures in general practice, Francis, George H., 103; exhibit of x-ray plates of fractures, Simmons, Channing C., 106.

Frontal Sinus. What type of operation is best adapted for the relief of disease of the frontal sinus? Crockett, Eugene A., 96.

Gallstones. The diagnosis and prognosis of gallstone disease from the point of view of the surgeon, Richardson, Maurice H., 768.

Gangrene. Abscess and gangrene of the lungs, Lord, F. T., 544; gangrene of the lungs, Vickery, Herman F., 544.

Guaiac Test. A comparison of the guaiac and benzidin tests for invisible hemorrhage in diseases of the digestive organs, White, Franklin W., 733; the aloin or guaiac test for blood depends solely upon the iron contained in its hemoglobin, Whitney, William F., 202.

Gynecology. Report on gynecology, Burrage, W. L., 274; an easy extra-peritoneal approach to an abscess of the broad ligament, Hutchins, Henry T., 485; a short description of Wertheim's radical abdominal operation for cancer of the cervix of the uterus, with a report of eight cases, Hutchins, Henry T., 641; cancer of the uterus, Johnson, F. W., 357; cancer of the uterus. A review of 254 cases from the gynecological service of the Boston City Hospital, Young, Ernest Boyen, and Williams, John T., 225.

Hand Sterilization. A study on hand sterilization, Cumston, Charles G., 333, 373.

Heart. Tubercular pericarditis, Metcalf, Carleton F., 404.

Hemorrhage. Report of a case of middle meningeal hemorrhage successfully operated upon, Baldwin, Henry C., and Brewster, G. W.W., 545; internal concealed hemorrhage, Torbert, James R., 125; intracranial hemorrhage in the newborn, Torbert, James R., 500.

Hemorrhoids. A cursory review of surgical methods for the extirpation of hemorrhoids, Hill, T. Chittenden, 445.

Homicide. A case of justifiable homicide, Presbrey, Silas D., 236.

Hydronephrosis. Intermittent hydronephrosis. With a report of four cases, Jones, Daniel F., 529, 582, 613.

Hydrotherapy. The personal element in prescribing hydrotherapy, Baldwin, Henry C., 468; some truths about hydrotherapy, Baruch, Simon, 463.

Hysteria. The trend of the clinician's concept of hysteria, Williams, Tom A., 364.

Imbecile Girls. The placing out of high-grade imbecile girls, Bullard, William N., 776.

Imperforate Anus. Case of imperforate anus, Kingman, L. C., 613.

Intussusception. Acute intussusception. Its early diagnosis and treatment, with a report of four cases, Rowen, Henry S., 10.

Iritis. The etiology and diagnosis of iritis, Thompson, Peter H., 699.

Kidney. Two cases of bilateral nephrolithiasis, Cabot, Hugh, 208; some observations on renal diagnosis, Chetwood, Charles H., 259; two cases of kidney infection illustrating the value of cystoscopic examination and ureter catheterization. Treatment of the cases by vaccines, Cunningham, John H., Jr., 340; a case of chronic glomerulo-nephritis in which double decapsulation was performed, Garceau, Edgar, 707; an accurate rapid method for the quantitative determination of chlorine in the urine. A critical study of the short methods in vogue, Goodall, Harry W., 304.

Lachrymal Duct. Treatment of obstruction of the lachrymal duct, Berry, John C., 541.

Legal Responsibilities. What are the legal responsibilities of the employer in case of the "accidental" death of the employee? Fraser, J. C., 241.

Ligament. An easy extra-peritoneal approach to an abscess of the broad ligament, Hutchins, Henry T., 485; the calcaneo-fibular ligament and its neighborhood, based on dissections, Tracy, Edward A., 369.

Lobar Ganglia. A report on the circulation of the lobar ganglia, Ayer, J. B., and Aitken, H. F., May 6 supplement.

Malaria. The classification of the malaria plasmodia, Craig, Charles F., 677.

Malignant Disease. The medical treatment of malignant disease, Gay, George W., 297.

Mechanotherapy. The principles of mechanotherapy with special reference to the treatment of orthopedic cases, Bucholz, C. Hermann, 264.

Medical and Scientific Spirit. How may the medical and scientific spirit be best promoted in our institutions? Drew, Charles A., 49.

Medical Examiners. Mutual relations of prosecuting officers and medical examiners, Parker, Herbert, 192.

Medical Inspection. The medical inspection of schools in Boston. The present limitations and future possibilities, Coues, W. P., 746.

Medical Notes. 25, 55, 84, 116, 147, 178, 215, 250, 288, 320, 348, 384, 420, 455, 489, 522, 553, 593, 627, 657, 690, 724, 757, 792, 827.

Medical Notes of Travel. Random medical notes of travel, Shattuck, George C., 573.

Medicine. Medicine in the Bible. (A brief review), Bernstein, Harry S., 166; mysticism and medicine, Donley, John E., 306; some new applications of electricity and light medicine, Van Allen, H. W., 331.

Meningitis. A case of serous amicrobic meningitis. Operation. Recovery, Simmons, Channing C., 679.

Metatarsalgia. Anterior metatarsalgia: its causes and its relief, Allison, Nathaniel, 229.

Milk. Human milk in the treatment of various infections, Denny, Francis P., 161.

Miscellany. Dr. Rotch lectures in New York, 64; the American Medical Association and the optometrists, 122; the annual meeting of the Aesculapian Club, 155; the coming change in the medical profession, 184; The Massachusetts Medical Society, 187; the relation of independent institutions of research to medical education, 221; a correction, 296; echoes from the Italian earthquake, 356; the medical board of the General Memorial Hospital in memory of Dr. W. T. Bull, 357; the socialization of medicine, 357; a memorial to Dr. W. T. Bull, 357; the late Dr. Thomas Wakley, 459; city charter meeting of the Boston Medical Library, 459; erratum, 462; the seventy-sixth year of the Boston Lying-In Hospital, 495; resolutions on death of Dr. D. D. Gilbert, 495; the Spanish translation of the pharmacopeia of the United States of America, eighth revision, 527; the Harvard Medical School alumni day, 539; ninth decennial convention for the revision of the pharmacopeia of the United States of America, 559; Rockefeller Institute for Medical Research, 560; annual meeting, American Therapeutic Society, 663; erratum, 664; alumni day at the Harvard Medical School, 697; an international congress of medicine and hygiene, 730; The Massachusetts Medical Society. Meeting of the Council, 832.

Morris's Point. Morris's point of tenderness as an aid in diagnosis, Morris, Robert T., 63.

Myositis Ossificans. Myositis ossificans of the brachial anticus, Simmons, Channing C., 548.

Nerve Strain. Nerve strain of school children, Flanders, Louis W., 232.

Neuralgia. Osmic acid injections for the relief of trifacial neuralgia, Germain, H. H., 137.

New Instruments. A flexible metal catheter, Chase, Henry M., 272; a colon evacuator, Fernald, Guy G., 380; the coin and button tube. A tonsil tenaculum, Mosher, H. P., 647.
Noma. Noma: seven cases; two recoveries; forty infected, Crandon L. R. G., Place, Edwin H., and Brown, William J., 473.

Obituaries. Richard A. F. Penrose, M.D., 31; Thomas Haven Dearing, M.D., 62; Daniel Dudley Gilbert, M.D., 122; John G. McAllister, M.D., 184; Frederick Irving Knight, M.D., 257; W. T. Bull, M.D., 294; Alfred C. Smith, M.D., 356; Phineas Sanborn Conner, M.D., LL.D., 426; Frank Winthrop Draper, M.D., 558; Charles B. Porter, M.D., 696; Gerardus Hillis Wynkoop, M.D., 697; Charles Ellery Stedman, M.D., 1831–1909, 763.
Obstetrics. Report on obstetrics. Ophthalmia neonatorum, De Normandie, Robert L., 138; placenta prævia. An analysis of 155 cases delivered at the Boston Lying-In Hospital during the past thirty-five years, Mason, Nathaniel R., and Williams, John T., 711; some of the vagaries of the obstetrician from the standpoint of the pediatrician, Morse, John L., 93; cancer of the cervix complicating pregnancy, Williams, John T., 669; dangers to the child in operative delivery, Houghton, S. A., 813; when to interfere in pregnancy and labor, Newell, Franklin S., 805; the fundamental conceptions which should govern modern obstetric practice, Reynolds, Edward, 799; obstetrical progress, Warren, Stanley P., 810.
Ophthalmia Neonatorum. The newer silver salts as compared with silver nitrate in the treatment of ophthalmia neonatorum, Cheney, Frederick E., 269; ophthalmia neonatorum, D. C., 599; report on obstetrics. Ophthalmia neonatorum, De Normandie, Robert L., 138.
Orthopedic Clinics. Some interesting and unusual cases from the orthopedic clinics of the Rhode Island and St. Joseph's Hospitals, Peckham, Frank E., and Hammond, Roland, 447.

Pediatrics. The feeding of the infant in health, Brown, Daniel R., 128; the newer silver salts as compared with silver nitrate in the treatment of ophthalmia neonatorum, Cheney, Frederick E., 269; the medical inspection of schools in Boston. The present limitations and future possibilities, Coues, W. P., 746; a peculiar form of family nervous disease resembling multiple sclerosis occurring in children, Coriat, Isador H., 506; ophthalmia neonatorum, D. C., 590; psychotherapy as applied to children, Eastman, A. C., 163; fibroid phthisis in childhood with presentation of a case, Fairbanks, Arthur W., 199; nerve strain of school children, Flanders, Louis W., 232; a case of ovarian tumor with twisted pedicle in a child three months old, Lund, F. B., 413; some of the vagaries of the obstetrician from the standpoint of the pediatrician, Morse, John L., 93; report on pediatrics, Rotch, Thomas M., and Morse, John L., 243; the composition of small curds in infants' stools, Talbot, Fritz B., 13; intracranial hemorrhage in the newborn, Torbert, James R., 500.
Pleuritis. The treatment of fibrinous and sero-fibrinous pleuritis, Lord, Frederick T., 469.
Poisoning. Poisoning by illuminating gas, Dana, Harold W., 680; a report of two cases of poisoning by wood alcohol, Pierce, A. H., 237; a case of egg poisoning, Tyrode, Maurice V., 718.
Progress. Progress in the theory and practice of medicine, Adler, Herman M., 448; report on gynecology, Burrage, W. L., 274; report on obstetrics. Ophthalmia neonatorum, De Normandie, Robert L., 138; progress in hygiene, Hanson, William C., and Linenthal, H., 309; recent progress in neurology, Knapp, Philip C., 511; report on pediatrics, Rotch, Thomas M., and Morse, John Lovett, 243, 681; report on mental disease, Stedman, H. R., 19.
Pseudo-Hermaphroditism. A case of pseudo-hermaphroditism, Harris, William L., 371.
Psychotherapy. Psychotherapy as applied to children, Eastman, A. C., 163; some aspects of psychotherapy, Thomas, John J., 5.

Rattlesnake Venom. The therapeutic action of rattlesnake venom in pulmonary consumption, in acute and chronic bronchitis, asthma, etc., and in some well-recognized neuroses. A preliminary paper, Mays, Thomas J., 481.
Rectum. Stricture of the rectum, Rogers, Cassius C., 748.
Rheumatism. Recent progress in the treatment of various conditions called rheumatism, Osgood, Robert B., 393.
Rhinitis. The treatment of atrophic rhinitis with vaccine, Mosher, H. P., and Kerr, I. D., 646.

Serum. The serum diagnosis of syphilis, Gay, Frederick P., and Fitzgerald, J. G., 157.
Shoulder-Joint. Excision of the shoulder joint, Scudder, Charles L., 549.
Skin Disease. Symptom-complex of a series of exanthematous diseases. Or is there a new contagious exanthem? Watson, J. William, 780, 814.
Skin Lesions. Two cases of self-inflicted skin lesions, Burns, F. S., 547.
Societies. American Urological Association, 278; Association of American Physicians, 752; Boston Medical Library with Suffolk District Medical Society, 312; College of Physicians of Philadelphia, 51, 211, 653; Medical Jurisprudence Society of Philadelphia, 346; Medical Society of the State of New York, 246, 283; New England Otological and Laryngological Society, 110; New England Pediatric Society, 516; New York Neurological Society, 719; Philadelphia County Medical Society, 486, 623, 687; Suffolk District Medical Society, Medical Section, Boston Medical Library, 414; Suffolk District Medical Society, Surgical Section, 78; Western Surgical and Gynecological Association, 143, 168; the American Therapeutic Society, 786, 820; Association of American Physicians, 783.
Spinal Cord. Congenital neuroglia tissue nests in the meninges of the spinal cord. Report of a case associated with other congenital defects, Ryder, Charles T., 133.
Spleen. The relation of the spleen to resistance against infection, Hubbard, J. C., 743.
Stenosis. Congenital stenosis of the pylorus. Posterior gastrojejunostomy. The report of a fifth successful case. Remarks on diagnosis and treatment, Scudder, Charles L., 273.
Stomach. Three cases of perforated gastric ulcer in men. Operation. Recovery, Cobb, Farrar, 204; on the importance of distinguishing simple round ulcer of the duodenum from those ulcers which involve the pylorus or are above it, Codman, E. A., 550; congenital stenosis of the pylorus. Posterior gastrojejunostomy. The report of a fifth successful case. Remarks on diagnosis and treatment, Scudder, Charles L., 273.
Subdural Clot. Subdural clot interfering with speech, Hubbard, J. C., 588.
Syphilis. The history of syphilis, Cumston, Charles G., 91; the serum diagnosis of syphilis, Gay, Frederick P., and Fitzgerald, J. G., 157; the Wasserman reaction in syphilis and other diseases Lee, Roger I., and Whittemore, Wyman, 410; the Wasserman reaction for syphilis, Whittemore, Wyman, 651; treponemata (spirochetæ) in syphilitic aortitis. Five cases, one with aneurism, Wright, James H., and Richardson, Oscar, 539.

Tabes. Peripheral neuritis simulating tabes, Vickery, H. F., 205.
Teeth. Advantages of tooth wiring *v.* splints, Wright, George H., 652; a functional relation of the tonsil to the teeth, Wright, George H., 635.
Therapeutics. Modern ideas on the teaching of therapeutics and pharmacodynamics, Tyrode, Maurice V., 412.
Thiosinamin. Thiosinamin. (Abstract), Tyrode, Maurice V., 50. Small round-cell sarcoma of the tonsil, Crossfield, Frederic S., 109.
Tonsils. A case of sarcoma of the tonsil. A case of tuberculosis of the tonsil. A tonsil tenaculum, Mosher, H. P., 647; a functional relation of the tonsil to the teeth, Wright, George H., 635.
Trichiniasis. A case of trichiniasis, Vickery, H. F., 205.
Tuberculosis. London letter. Tuberculosis exhibition, C., 326; fibroid phthisis in childhood with presentation of a case, Fairbanks, Arthur W., 199; the day camp of the Lawrence Anti-Tuberculosis League, Howe, G. P., 123; the municipal hospital for advanced consumptives in Boston, Locke, Edwin A., and Cox, Simon F., 438; the therapeutic action of rattlesnake venom in pulmonary consumption, in acute and chronic bronchitis, asthma, etc., and in some well-recognized neuroses. A preliminary paper, Mays, Thomas J., 481; tubercular pericarditis, Metcalf, Carleton R., 404; a case of tuberculosis of the tonsil, Mosher, H. P., 647; observations upon exercise in pulmonary tuberculosis, Putts, B. Swayne, 714; Paris letter. A novel treatment of the working-class consumptive, "Spectator," 560; some observations of the cutaneous tubercular reaction, Williams, Francis H., 380.
Tumors. Twisted pedicle, Conant, W. M., 206; small round-cell sarcoma of the tonsil, Crossfield, Frederic S., 109; fibroid phthisis in children with presentation of a case, Fairbanks, Arthur W., 199; a case of ovarian tumor with twisted pedicle in a child three months old, Lund, F. B., 413; papilloma of bladder and cystoscopy, Meyer, Henry, 295; a case of sarcoma of the tonsil, Mosher, H. P., 647; a case of infrapubic cystotomy. Three cases of bladder tumor, Tenney, Benjamin, 497.
Typhoid Fever. Typhoid carriers found in a series of typhoid fever patients at the time of their discharge from the Boston City Hospital, Graham, W. T., Overlander, C. L., Overlander, John E., and Dailey, M. A., 38; vaccines in typhoid, Watters, W. H., and Eaton, C. A., 508.

Ulcers. Three cases of perforated gastric ulcer in men. Operation. Recovery, Cobb, Farrar, 204; on the importance of distinguishing simple round ulcer of the duodenum from those ulcers which involve the pylorus or are above it, Codman, E. C., 550; re-implantation of the common bile duct into the duodenum for stricture of the ampulla due to duodenal ulcer, Harrington, Francis B., 203; perforation of a duodenum ulcer, Hubbard, J. C., 588; two cases of perforated duodenum ulcer, Wiseman, Joseph R., 343.
Urine. The Luys urine seperator. Second report of forty-one cases, Barringer, Benjamin S., 502; an accurate rapid method for the quantitative determination of chlorine in the urine. A critical study of the short methods in vogue, Goodall, Harry W., 304.

Vaccines. Two cases of kidney infection illustrating the value of cystoscopic examination and ureter catheterization. Treatment of the cases by vaccines, Cunningham, John H., Jr., 340; the treatment of atrophic rhinitis with vaccine, Mosher, H. P., and Kerr, I. D., 646; vaccines in typhoid, Watters, W. H., and Eaton, C. E., 508.

Wasserman Reaction. The Wasserman reaction in syphilis and other diseases, Lee, Roger I., and Whittemore, Wyman, 410; the Wasserman reaction for syphilis, Whittemore, Wyman, 651.
Wood Alcohol. A report of two cases of poisoning by wood alcohol, Pierce, A. H., 237.

X-Rays. Exhibit of x-ray plates of fractures, Simmons, Channing C., 106.
